

# Infiniti-e Hosted solutions

---

## Microsoft Small Business Server

With businesses now demanding higher availability and reliability, hosting crucial applications such as Microsoft small business server elsewhere with constant monitoring not only saves costs, but also gives peace of mind.

Infiniti-e have made considerable investment in building our own data centre to make sure that it provides the right environment even for the most mission critical applications.

### A robust and flexible platform that combines:

- Microsoft Exchange Server 2003/2007
- Microsoft SQL Server 2000/2005/2008
- Microsoft Windows SharePoint services
- Microsoft internet and Security Acceleration Server 2004/2006
- Internet Information Services 6/7

### Centralise your company data

Using a Microsoft Small Business Server hosted by Infiniti-e's data centre and receive a number of benefits:

- Improved productivity throughout your business by being able to quickly locate and share data.
- The range of applications combined on the server, giving you everything you should need throughout your business.
- Help to secure your network and protect the business information by using an operating system you can rely on.
- An on-site technical support team should anything go wrong with your hosted server.
- The server will grow as your business grows- add users quickly and easily yourself, no need for more expensive hardware as you employ more people.
